

ARS-ST. LOUIS ALUMI CLUB BEING FORMED!"

If efforts to re-live "the good old days" as being part of the warm ARS family, ex-employees are creating an official ARS Alumni Club. The meetings will be held on the first Monday of every month at 7:00pm at The Kiel Center. In keeping with tradition, the meetings will never start on time and will show no sign of ending once they begin.

In a related note, the Karen Carroll Fan Club meeting will be held on leap year Wednesdays in the supply closet at 3100 Market Street.

For more alumni club information, call anyone from "The Class of 98" including:

Jen Turec	Ken Allgeyer
Jim Simpson	Melissa Fox
Ann Miller	Amy Hallemann
Joyce Pavia	Kathleen Gunter
Mike Elbe	Mark Genet
Cissy Hamby	Steve Moore
Howard Dolgoff	Jeff Cochran
Courtney Dressler	Steve Mosier
Bob Williams	Christy Abell
Julie Pisoni	Pat DeNoyer
Wendy Dyes	Jill Lewis
Darrell Haynes	Joanne Dierssen
Jim Krupke	Leslie O'Brien
Debbie Alexander	Larry Macklin
Craig Schwalb	Jon Brier
Mary Donohue	Julie Morrow
Kim Wilson	Jeff Stone
Merridith Schiller	Jeff Laramie
Katie Kniest	Debbie Steudeman

Returning alumni Mary Caputa, Summer Penet, and Ken Deutch, any staff member of KSD and KFNS and those currently planning to leave KYKY and KEZK can also provide more details. Stay tuned - the club is growing!

NEW CBS LEADER "FIT" FOR THE JOB!

As the new kingpin of St. Louis radio, KMOX General Manager Karen Carroll is acclimating herself to the new CBS environment in the same manner as her ARS colleagues. There is, however, one new twist. Per CBS policy, all new management personnel are subject to a physical examination. Not surprisingly, Carroll passed with flying colors! "I must admit that I was a bit nervous at first, but everything turned out marvelous" she said.

"Carroll is remarkably fit and attractive for a woman of 236 years old" said Dr. George Toole, CBS corporate physician. Dr. Toole utilized a complex carbon-dating procedure to determine Carroll's exact age. He also discovered another medical oddity. "She's perfectly healthy but has no heart. It's a bit strange, but she claims to feel terrific," he said. Dr. Toole attributes Carroll's longevity to regular exercise, daily vitamins and routine "body maintenance." "She changes her formaldehyde every 10,000 miles and soaks her face in Gloveoleum each night" he said.

Although no mental exam is mandatory at CBS, Dr. Toole pronounced Carroll's cerebral faculties to be in order. Her mental fitness has been maintained through daily transcendental meditation and the complete absence of a conscience, according to Dr. Toole.
